

Dear Councilors

It is time something was done about the parking in Meadow Vale Haswell, there is always numerous vehicles which some law abiding residents believe are unlawfully parked, and the main issue is safety. At times you cannot walk or push a pram on the footpath and as the road is not very wide it is dangerous to walk on the road especially as some vehicles appear to be going too fast and when the vehicles are parked up they also obstruct the view of other drivers.

There is also some trucks parked up and when they reverse have there alarm going early morning which is very annoying it is about time you did something about these problems.

If this is not resolved to a satisfactory conclusion then we will find it necessary to take further action.

Yours Sincerely

Residents of Meadow Vale safety group
